## Description

---

We are ordinary people doing extra ordinary work because we believe in what we do and that makes the difference. Sonop Solar was found in 2014 and registered in 2015. Born out of pure passion to become the change we want to see in the world. Through professional solar system installations we bring electricity to rural, commercial, residential and agricultural businesses. Bringing electricity to those who previously did not have. Creating a saving systems for those who need saving on their electrical bills. Helping everyone to go off grid and living a greener life. Bit by bit saving our planet with a greener consistency plan for your electricity at home or business. If you are looking for a cheap affordable short term solar system fix, Sonop Solar is not for you. We work with longevity, quality products and qualified professional installers. Our aim is to make a positive change that lasts and gives our clients the best return on their investments.
